

FIRE PROCEDURE

Lydiard Youth FC – July 2018

This document is intended to help deliver a safe and effective response in the event of a fire incident whilst visiting our football club.

Club Name: Lydiard Youth Football Club

Club Pitches: Kingsdown School, Hyde Road, Stratton St Margaret, Swindon, SN2 7SH

Fire Alarm Policy & Procedure

All Lydiard Youth Managers & official Assistant Coaches are aware of the Kingsdown School Fire Policy & Procedure. This focuses on evacuating the members of the public, our players and spectators to a safe area in the event of a fire.

The official evacuation point is on the school tennis courts which are positioned next to the Department & Technology Blocks, that is positioned next to the 4G pitch and football pitches.

In the rare case of a fire, the schools alarms will sound and the DUTY CARETAKER would be notified by the Fire Alarm monitoring centre. The emergency duty caretaker contact mobile number is fixed onto the side of the 4G facility.

We will keep all players, officials and spectators away from the school buildings and on the main football pitches until the incident is resolved. No one will be allowed to venture back to the car parks with children as this would be moving closer to the potential incident.

Please respect the instructions of our managers and coaches who prime responsibility and concerns are with the children/players and spectators that are on site.

Should you have any concerns or queries with our Fire Policy and Procedures then please get in contact with a member of the committee through the official website.
